

## Kelly Paterson

Kelly Paterson is a physiotherapist working in paediatrics at Royal Darwin Hospital, providing physiotherapy services to inpatients and outpatients from all medical and surgical areas including neonates, infants and children. Kelly has been working in Darwin for over 18 months, and has previously worked in paediatric physiotherapy in Brisbane and south-east Queensland, with an emphasis on Paediatric orthopaedic work. With the support of the RDH orthopaedic team, Kelly coordinates and provides Ponseti casting management for infants and children with clubfoot from remote as well as metropolitan areas of the Top End. Kelly is hoping to be travelling to Iowa (USA) later this year for specialised training in the Ponseti method.
