

GIPPSLAND & NORTH WEST VICTORIAN REGIONAL TRAINING HUBS

Monash has two Regional Training Hubs.

The Hub's purpose is... to develop regional training capacity and improve the coordination of the stages of medical training to enable as much postgraduate medical training as possible within regional areas.

What the Hubs do...

Identify regional medical **workforce need** within their catchment & **work to build medical training pathways** in these areas

Support for students & interns with an interest in rural practice, eg:
Career planning support;
Placement opportunities; &
Access to mentoring

Facilitate the development of new training capacity via:
Assisting accreditation of new placements;
Supporting health professionals to become clinical supervisors.
