

# *beyondblue's* Directory of Medical and Allied Health Practitioners

## **An online directory of GPs, Clinical Psychologists, Psychologists, Occupational Therapists, Social Workers and Mental Health Nurses**

*beyondblue's* Directory of Medical and Allied Health Practitioners (MAHP) is an online national directory designed to help:

- people find a suitable mental health practitioner in their local area.
- health practitioners with referrals.

The directory is a list of practitioners who provide assessment and treatment for depression, anxiety and related disorders.

The directory is online at [www.beyondblue.org.au](http://www.beyondblue.org.au) – it lists around 3,000 health practitioners and gets 100,000 hits a year.

If you're an eligible health practitioner who specialises in mental health, make sure you're registered and your details are up to date.

Turn over for more information.
