

We have a world-first diagnostic tool for mood disorders.

You can now access it online.

MAP

The Black Dog Institute's Mood Assessment Program is based on decades of clinical expertise in the assessment, diagnosis and treatment planning for people suffering from depression and bipolar disorder.

- Unique assessment tool for practitioners treating patients with mood disorders
- Free to patients and practitioners
- Secure online assessments
- Reports available promptly and securely to referring practitioner
- Informs diagnosis and guides treatment planning
- Provides invaluable information about patients' depressive sub-type, history, treatments and other contributory factors
- Accessible to all GPs and psychologists across Australia who register with us.

On registration, you will receive an information pack, including what to expect from a MAP report and all you need to refer patients.

Register today using form overleaf. For further information visit the Institute's website: **www.blackdoginstitute.org.au**

Email us at **MAP@blackdog.org.au** Phone **02-9382-9258**

The Black Dog Institute is a government- funded educational and research institute.
