Xenia Dolja-Gore

Xenia Dolja-Gore has conducted statistical investigations in areas associated with health services for over 20 years. Xenia is currently undertaking her PhD while working with the Research Centre of Gender, Health and Ageing at the University of Newcastle. Xenia’s work involves statistical modelling using data linkage across large scale datasets. Both her PhD and her current work are based on mental health service utilisation using data from the Australian Longitudinal Study on Women’s Health linked with Medicare’s MBS and PBS datasets.
