Priya Martin

Priya Martin graduated as an occupational therapist in 2003 from Christian Medical College, Vellore, India. She has been working as a full-time occupational therapist since, having worked in two countries; in acute and rehab settings; in clinical, non-clinical and teaching roles; and in the public and private sectors. Her special interests include neurological rehabilitation, geriatric rehabilitation, clinical education and interprofessional learning.

Priya is currently completing MPhil through the University of Queensland. As part of the MPhil degree she is completing a state-wide research project on clinical supervision. This project focuses on clinical supervision practices of occupational therapy clinicians working in Queensland Health. This conference presentation is part of the abovementioned research project.
