Patient assisted travel schemes (PATS) are an important element of providing equitable access to essential health services for people in rural, regional and remote (hereafter rural) Australia.

A critical mass of people (or patient throughput) is required to justify or commercially support the work of more specialised health professionals. In Australia, rural outreach is commonly provided by non-general practitioner (GP) specialist doctors who periodically visit the same community over time. This can take the form of fly-in fly-out models. However, the reality is that people in sparsely populated areas often need to travel to their nearest regional centre or capital city for health care of a more specialised nature. While specialised, such services are essential, not discretionary, for the patients concerned, for example, oncology for cancer patients, dermatology for skin issues, or dialysis for end-stage kidney disease.

PATS provide patients (and eligible escorts) with financial assistance towards the costs involved in travelling to, and staying near, non-GP specialist medical services while the patients are undergoing treatment.

Background

The Isolated Patients Travel and Accommodation Assistance Scheme (IPTAAS), introduced in 1978, was funded and managed by the Australian Government. In 1987, management of programs was transferred to the states and territories.

As recipients of funding from the Australian Government for the provision of free public hospital services, the states and territories must ensure that people have equal access to public hospital care regardless of their geographic location.

Payment rates

Payment rates for PATS vary between states and territories; they are subsidies that are not designed to cover the full costs of visits to a major centre. All jurisdictions provide subsidies for accommodation and fuel allowances for private vehicle travel. The fuel allowances do not cover wear and tear or depreciation of the vehicle, just a portion of the cost of fuel, generally on a cents-per-kilometre basis. The various fuel and accommodation subsidies are outlined below.

All schemes provide support for ground transport and some also subsidise air travel, which is particularly important for jurisdictions such as the Northern Territory where the distances to be travelled can be vast. Some jurisdictions require a co-payment before the scheme can be accessed.

Eligibility criteria

For a patient to be eligible to receive a subsidy, their travel and accommodation must be for an approved type of care; some non-GP specialist medical visits are covered, others are not, and some jurisdictions allow certain allied health services, under specific conditions. There are also requirements around referrals from a doctor or other health professional. Another of the eligibility criteria is that the nearest available service must be a minimum distance from the patient.

Some jurisdictions cover frequent travel expenses under ‘block treatment’ provisions. These are designed to recompense those patients who do not meet the minimum distance requirement but are undertaking treatment that requires multiple journeys over a short period of time (typically one week).

See below for details of eligibility criteria by state and territory. You are encouraged to refer to the relevant guidelines for your jurisdiction to understand the full details and eligibility requirements of the scheme.
Carers and escorts

All schemes include provision for the eligible patient to be accompanied by an escort – a family member or adult responsible for the patient’s needs for the period of transport and accommodation during treatment. An approved escort must be deemed necessary by either the referring GP or the approved non-GP medical specialist. An escort is automatically approved if the patient is under 18 years of age (under 17 years of age in the case of New South Wales).

Escorts are not approved solely for the purpose of emotional support or to keep the patient company.

PATS under review

Over the years, there have been a number of reviews of the schemes:

- Senate Standing Committee on Community Affairs Inquiry into the operation and effectiveness of Patient Assisted Travel Schemes (2007)²
- Northern Territory Review of the Patient Assisted Travel Scheme (2013)⁴
- Review of the South Australian Patient Assistance Transport Scheme (2013)⁵
- Review of the Tasmanian Patient Travel Assistance Scheme (2022)⁶.

Recurring recommendations from these reviews have centred around:

- adequacy of the amount paid towards accommodation and travel
- lowering the threshold for distances patients must travel before qualifying for assistance
- streamlining what is deemed to be an overly complex and bureaucratic process for claiming reimbursement, which obviously has a severe effect on families with a low income.

Feedback received by the National Rural Health Alliance has indicated that the schemes could be improved by expansion to include a range of essential non-medical specialist services (such as allied health and dentistry) that are not currently covered, noting that some jurisdictions already allow certain allied health services under specific conditions.

Critical choices

Survival rates from cancer are poorer in rural areas, due in part to delayed diagnosis and intervention. In some cases, patients in more remote areas may elect to have more radical treatment rather than make repeated trips for an ongoing program of intervention. The availability and adequacy of accommodation and travel support is one of the factors that affects such critical decisions. This highlights the importance of PATS.

The future

The ongoing challenge for the schemes is to achieve a balance between consistency across jurisdictions and the desired level of flexibility. A key reason the states and territories were given control of PATS was because of the perceived flexibility they would have in meeting the needs of local communities.

Adopting a uniform approach for some aspects of the schemes may be one way to create a fairer system. At the same time, it is recognised that other aspects of the schemes need to reflect jurisdictional differences such as size, distance and public transport availability.

PATS are important in the provision of equitable access to health care for people in rural Australia. The National Rural Health Alliance will continue to monitor the situation and welcomes feedback from patients, their families and clinicians.

See below for a summary of distance requirements and subsidies available by state and territory.

## A GUIDE TO PATIENT ASSISTED TRAVEL SCHEMES

The following PATS details for each state and territory are current as of July 2023.

<table>
<thead>
<tr>
<th>Travel Reimbursement Scheme</th>
<th>ACT (Effective from July 2020)</th>
<th>NSW (Effective from August 2022)</th>
<th>NT (Effective from June 2017)</th>
<th>QLD (Effective from July 2023)</th>
</tr>
</thead>
</table>

### Basic Distance Threshold Requirements
Patient eligibility criteria apply and are detailed in each scheme's guidelines.

### Travel Subsidy

#### Rebates up to a specified amount (return):
- Private vehicle - Sydney $110, Melbourne $220, Brisbane $300, Adelaide $440
- Coach/Bus – Sydney $90, Melbourne $160, Adelaide $290, Brisbane $390

#### Private vehicle 40 cents per km.
- Day 1 visit: max $20
- Day 2-7 visit: max $40
- Day 8+ visit: max $60.
- Economy air fare where medically endorsed.

#### Commercial accommodation subsidy of up to $50 per night per person.
- Private accommodation is no longer supported.

### Accommodation Subsidy Per Approved Person
Includes the patient and an approved escort. In some situations, two escorts may be approved. See relevant guidelines for eligibility criteria.

#### NT (Effective from June 2017)
- Commercial accommodation subsidy of $60 per night per person.
- Private accommodation subsidy of $20 per night per person.

### Key Additional Conditions

#### ACT (Effective from July 2020)
- Nearest eligible specialist health service is 50 km or more one way from the Queensland public hospital or public health facility closest to your permanent address.

#### NSW (Effective from August 2022)
- Elk’s specialist health service is 50 km or more one way from the Queensland public hospital or public health facility closest to your permanent address.

#### NT (Effective from June 2017)
- Nearest eligible specialist health service is 50 km or more one way from the Queensland public hospital or public health facility closest to your permanent address.

#### QLD (Effective from July 2023)
- Nearest eligible specialist health service is 50 km or more one way from the Queensland public hospital or public health facility closest to your permanent address.

### N/A
- Eligible patients must pay for the first 4 nights of accommodation each financial year, unless they are under 18 or a concession card holder.

<tbody>
<tr>
<td><strong>BASIC DISTANCE THRESHOLD</strong></td>
<td>Patient eligibility criteria apply and are detailed in each scheme’s guidelines.</td>
<td>More than 300 km one way to approved medical specialist services not available locally.</td>
<td>More than 50 km one way to the nearest oncology or dialysis treatment centre. More than 75 km one way to the nearest specialised health service.</td>
<td>More than 70 km one way to access medical specialist for cancer or renal treatment. More than 100 km one way to access other eligible specialist medical treatment.</td>
</tr>
<tr>
<td><strong>TRAVEL SUBSIDY</strong></td>
<td>Private vehicle 32 cents per km. The most economical mode of travel appropriate for the client’s functional ability and medical condition. Economy air fare where medically endorsed OR when combined cost of surface travel subsidy and two nights of accommodation is more than return air travel OR when the most economical public transport option does not provide an appropriate travel option to the nearest specialist.</td>
<td>Private vehicle 24 cents per km. Economy return bus ticket. Economy air or ferry ticket for interstate travel. Specific conditions apply: – for residents of King Island and the Furneaux Islands – when travel is required outside Tasmania.</td>
<td>Private vehicle 21 cents per km. Economy public transport fare. Economy air fare only if the journey exceeds 350 km one way and a commercial flight is used. Taxi fare only to or from nearest public transport when there are no other transport options.</td>
<td>Private vehicle 16 cents per km. Community bus transporting two or more clients 25 cents per km. Economy train or bus fare. Economy air fare for: Pilbara or Kimberley residents; distances requiring more than 16 hours surface travel; cancer patients travelling more than 350 km one way for treatment; or medically endorsed air travel. Patients accessing cancer or renal treatment required to travel 70–100 km one way are eligible for $20 subsidy.</td>
</tr>
<tr>
<td><strong>ACCOMMODATION SUBSIDY PER APPROVED PERSON</strong></td>
<td>Includes the patient and an approved escort. In some situations, two escorts may be approved. See relevant guidelines for eligibility criteria.</td>
<td>Commercial accommodation subsidy only of up to $44 per night per person (plus GST) within SA and up to $80 per night per patient (plus GST) for interstate travel.</td>
<td>Commercial accommodation subsidy only of up to $76 per night per person within Tasmania and up to $98 per night per person for interstate travel.</td>
<td>Commercial accommodation subsidy of up to $100.30 per night for the patient and up to $15 per night for an escort. Private accommodation subsidy of $20 per night per person.</td>
</tr>
<tr>
<td><strong>KEY ADDITIONAL CONDITIONS</strong></td>
<td>Non pensioners and those without health care cards must meet the costs of first night of accommodation. If a stay longer than two nights in commercial accommodation is required to attend multiple medical appointments, your medical specialist needs to authorise your length of stay in order for subsidies to be provided for the additional nights.</td>
<td>Concession card holders, or the child of a concession card holder, will only have to pay the gap between the subsidy and the actual cost of travel. Non pensioners and those without a health care card must contribute $82.50 per return trip (capped at $330 per year).</td>
<td>People receiving VPTAS assistance pay the first $100 each treatment year for their travel and accommodation (except for primary card holders of a Pensioner Concession Card or Health Care Card).</td>
<td>Accommodation subsidies are only available for people who live more than 100 km from the treatment centre. Generally, you must be a permanent resident of a WA Country Health Service region in order to be eligible for PATS. However, if you live in the Peel region you may be eligible for PATS.</td>
